The Fultonian

Published by
The Senior Class
of
Canal Fulton High School

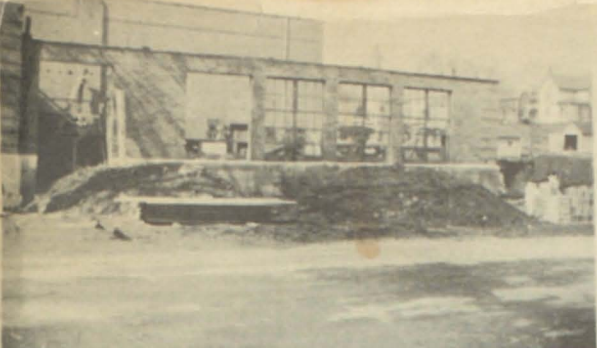

FOREWORD

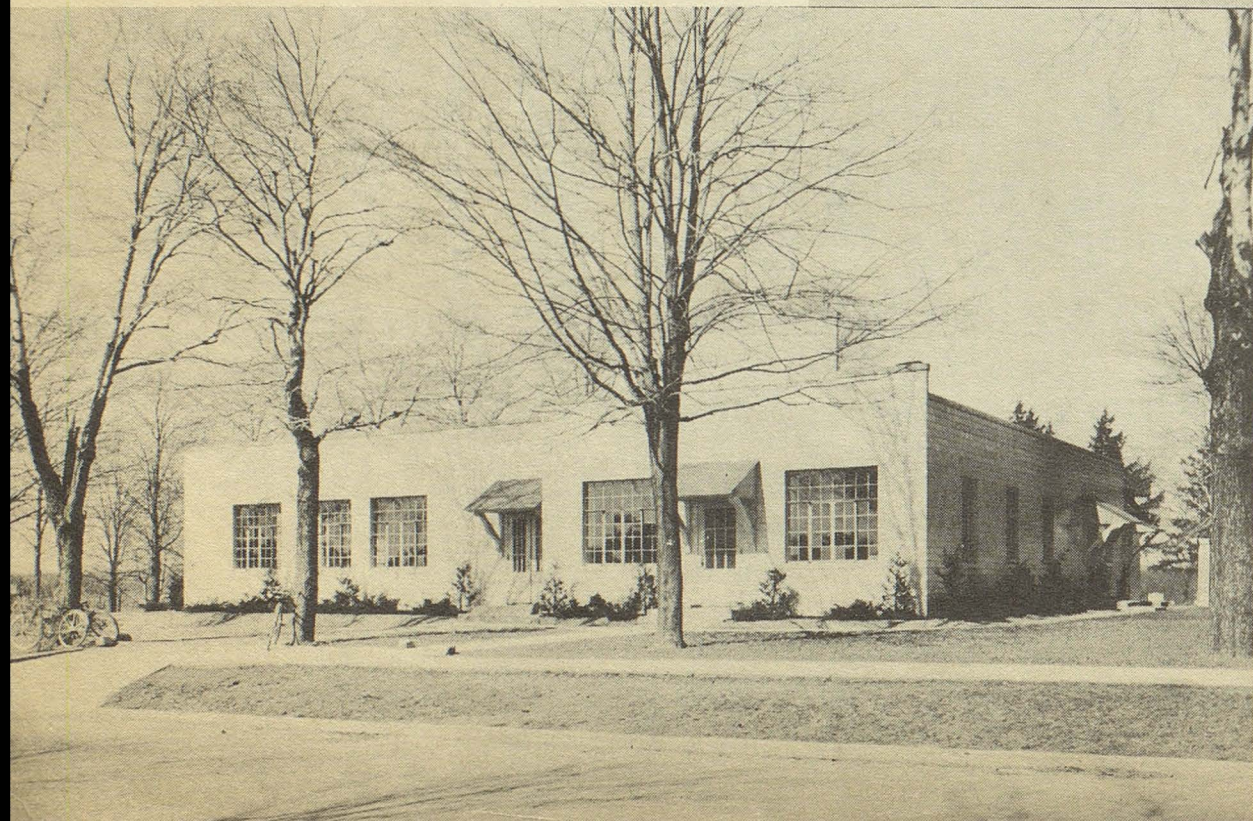

In presenting this publication of The Fultonian, the first of its kind in the history of the school, we the Seniors have endeavored to illustrate pictorially the principal activities of the year. It is a sincere hope that this book will vividly recall many familiar activities, scenes, and happy memories of the days spent in the Canal Fulton Schools.

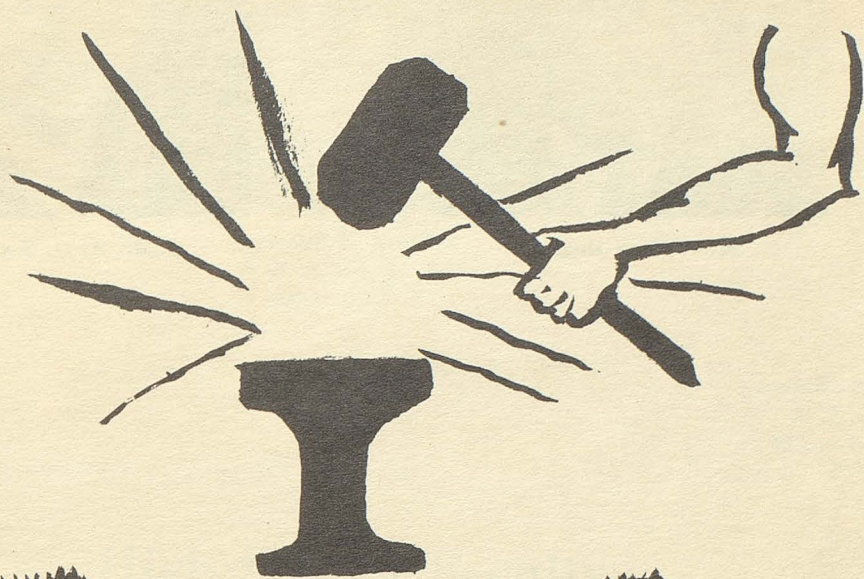

DEDICATION

With deep appreciation and sincere gratitude to one whose enthusiasm and zeal as a teacher, whose genial qualities of mind and heart have endeared him to all who have known him, and whose never tiring efforts during his two years with us have always been for the interests of Canal Fulton High School, we, the class of nineteen thirty-seven, dedicate this first publication of the Ful-tonian to Mr. H. Wayne Russell.

Board of Education

Membership on the board of education is an all-important position of public trust. It is demanding in its time, interests and responsibilities for it is through this governmental agency that the youth of our democracy is provided the opportunity to enjoy the privileges and benefits of a free public school education.

The program made by our public schools can be attributed largely to the interest and foresight of these public-spirited people who serve the community without any financial compensation whatsoever. Much criticism is often poured out upon the heads of each individual member as well as the board as a whole, but this quite often comes as a result of thoughtlessness and lack of understanding on the part of the self-appointed critic.

With sincere acknowledgment, the seniors wish to take this opportunity to thank each board member for his tireless efforts in behalf of a better Canal Fulton Public School. May these words of appreciation serve as a partial compensation for the sacrifices made for such a worthy cause.

In point of years of service rendered to the school public, first honor goes to Mr. George A. Hoover, President, who has been a board member for the past thirty-four years. Next in line is J. Lester Finefrock with twelve years of service to his credit, followed closely by Mr. A. G. Smith, Mr. Fred Denison and Mr. Vernon Dugan, each having served ten, eight, and five years respectively.

LIBRARY

Back row, left to right—Jeanne Sisler, Irene Hatt, Ethel Forrer, Pauline Schott.

Front row—Miss Fletcher, John Drew, Richard Burwell, Lorin Schultz, Helen Blanchard.

This year a very definite effort has been made on the part of the faculty and the Board of Education to improve the efficiency and content of the school library.

Before the opening of the school term the entire library was thoroughly cleaned and all material no longer of value was stored. Approximately 70 worn volumes were sent to the binder's to be rebound. All unclassified material was classified and shelved and the shelves read so that all volumes were in the proper order of the Dewey Decimal system.

Three new dictionaries, three new encyclopedias (including a 1936 Americana) were added. Eighty dollars was invested in fiction the majority of purchases being recent publications. The Latin, history and literature departments were enlarged and an encyclopedia of popular science has furnished an abundance of material for the science department. Forty dollars was spent for children's books, these being added throughout the year. Of this amount \$25 came as proceeds from a benefit picture show sponsored by grades 1, 2, 3, and 4.

The library has been the recipient of many gifts. The faculty contributed about 200 volumes and various patrons of the library have added nearly 400 more.

The school has subscribed for 12 magazines and the Rotary Club added 4 to the list. Two hundred and eight books were borrowed from the state library for the school term and 60 volumes from the Massillon Library for a semester.

A second step has been an effort to improve the efficiency of the administration and staff of the library. Eight student librarians have assisted Miss Fletcher in managing the library this year. They have learned all the simple principles of library routine and have been remunerated for their services either by credit or by NYA aid. With their training they have been competent to serve students in a more satisfactory manner especially with reference information. They have also been able to keep a much better check on the books in circulation. Lastly the attractiveness of the room has been improved with drapes and the like bought with fine money.

Since December the library has been open to the public on each Tuesday and Thursday night and trade has steadily grown since then, over 100 books have been distributed in one day not including magazine material.

Our library has proved itself both a value and pleasure to its many patrons.
